

THE PRODUCTFIELD

productfield.com

Frame

A meaningful visual representation keeps your product thinking structured.

Map

Make all your ideas and knowledge visible. A comprehensive big picture of your product thinking is key to shared understanding, commitment and success.

Check

Check the consistency and coherence of your ideas. Eliminate conceptual flaws, gaps or mismatches before execution.

Find

Evaluate the strengths and weaknesses of your product thinking. Find patterns that help you focus on important challenges.

FRAME

A meaningful visual representation keeps your product thinking structured.

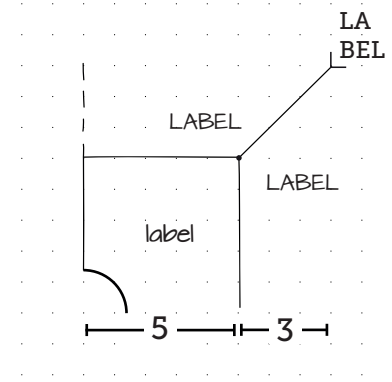

The Product Field spatially maps all aspects of product innovation on one canvas.

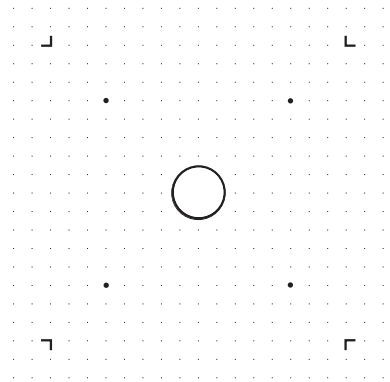

Inside to Outside - Aspects that describe the invention of a product will be placed on the left. Aspects that describe the adoption and diffusion will be placed on the right side.

Vision to Realization - Aspects that describe the vision of product creation and usage are placed at the top. Aspects that describe the realization are placed at the bottom.

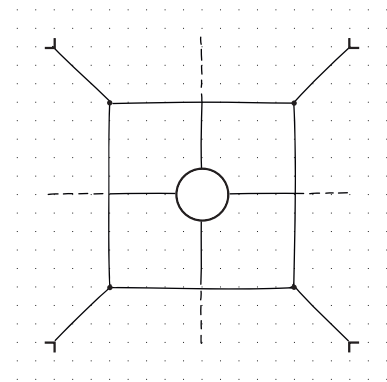

The 5:3:2 ratio defines a well proportioned canvas; different font styles make it more easy to distinct between core, context and character.

The name of the product is placed in the **Center**.

The description of the product, its value proposition, is placed in the **Core**.

All aspects that describe the creation and usage of the product are placed in the **Context**.

Every product innovation has a certain **Character** - the Idea it embodies, the Value it creates, the Market it caters and the Resources it utilizes.

MAP

Make all your ideas and knowledge visible.

Goals
